Laura—the proposed response plan is a good reflection of the issues needing discussion. We used track changes to indicate the few areas where we think additions/changes are needed, or shifting topics from one technical meeting to another make sense. I assume you will provide us with a revision for our policy meeting which may be scheduled for October 29. Our goal is to use this structure to have policy discussions inform the technical discussions, which then feed back to the policy group any unresolved/unresolvable items needing elevation. Depending on how quickly the various meetings proceed, and whether any of the topics require more than one meeting, we may want to set up placeholder calls for policy-level check-ins after one or more technical meetings are summarized. We are anxious to understand and help shape a Supplement that will address our comments as well as the major comments raised by others. Kathleen and I look forward to seeing you next week if you are able to schedule the first policy meeting. Jane

Hi Jane,

Attached is the proposed response plan to EPA's comments that we shared with you and discussed at today's meeting. Please let me know if we have missed any topics or concerns, and then we will begin scheduling a series of policy and technical level meetings to work through all the issues. I will look for a time the week of October 27 or November 3 for our first policy meeting.

It was a pleasure meeting you and I look forward to working with you.

Best,

Laura

Laura King Moon

Chief Deputy Director

Department of Water Resources
